

## Wacky Wigs

You can use any material to make the hair for these wigs – even newspaper strips would work.

### You will need:

- steamers
- 3cm wide card strips – long enough to fit around your head
- stapler
- scissors
- PVA glue (double sided tape is easier but harder to find)

### Method

1. Wrap a piece of card strip around the head to find the right fit and staple.

2. Staple another strip from the front to the back going over the top of the head.

3. Staple another 2 strips to the same points but in between the first 2.

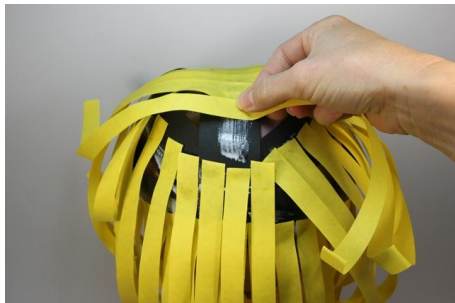

4. Paint a line of glue around the first strip.

5. Cut the streamers to the desired hair length and stick the pieces in a line around the strip of card.

6. Now run a line of glue over the 2 side strips and cover them with steamers as in step 5.

7. Now run a line of glue over the top strip. Use longer pieces of streamer so that they attach to the top and drop either side of the head.

8. Cut a fringe.

9. Curling ribbon and double sided tape.

10. Coloured wool and double sided tape.

11. Instead of covering the whole head, try making a hat or crown.

12. Red feather wool.

13. Adding a paper crown.
